

The scatter plot displays data points over time from 2015 to 2019. The x-axis is labeled 'sampledate' and has major ticks for the years 2015, 2016, 2017, 2018, and 2019. The y-axis is unlabeled but features a grid. The data points are black dots. Notable features include a high peak in early 2015, a cluster of points near the baseline throughout 2015 and 2016, a significant spike in early 2017, and another high peak in early 2018. The data points are sparse, with many intervals where the value is at the baseline level.
